

**Academic Autobiography- statement of research and teaching plans**

1. This document should contain a description of the candidate's important scientific contributions to his/her field of research, of his/her important publications in this field, and an indication of future plans. In addition, the candidate should describe his/her teaching experience and plans.
2. The statement of research and teaching plans should not exceed three pages.
3. The statement should be written in English.
4. In writing your statement, bear in mind that not all those who will read it are experts in your field.
